

Appln. No. 09/812,532  
Amtd. dated July 10, 2006  
Reply to Office Action of May 10, 2006

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claims 1 – 56 (Canceled)

Claim 57. (Previously presented) An edible oil comprising more than 10% and up to 30% of a sterol fatty acid ester composition, wherein the sterol fatty acid ester composition comprises more than 50% monounsaturated fatty acid (MUFA) moieties; wherein the edible oil that contains the sterol fatty acid ester composition remains clear upon addition of the sterol fatty acid ester composition; and wherein the edible oil that contains the sterol fatty acid ester composition is free of solids at temperatures of greater than about 60°F.

Claim 58. (Previously presented) The clear, edible oil of claim 57, wherein about 55% to about 80% of the fatty acid moieties are MUFAs.

Claim 59. (Previously presented) The clear, edible oil of claim 58, wherein about 60% to about 70% of the fatty acid moieties are MUFAs.

Claim 60. (Previously presented) The clear, edible oil of claim 57, wherein less than about 6% of the fatty acid moieties are saturated fatty acids (SFAs).

Claim 61. (Previously presented) The clear, edible oil of claim 60, wherein about 0.1% to about 4% of the fatty acid moieties are SFAs.

Claim 62. (Previously presented) The clear, edible oil of claim 61, wherein about 0.5% to about 2% of the fatty acid moieties are SFAs.

Claim 63. (Previously presented) The clear, edible oil of claim 57, wherein less than 50% of the fatty acid moieties are polyunsaturated fatty acids (PUFAs).

Claim 64. (Canceled)

Claim 65. (Previously presented) The clear, edible oil of claim 57, wherein the unesterified sterol level is less than about 10%.

Claim 66. (Previously presented) The clear, edible oil of claim 58, wherein the unesterified sterol level is less than about 5%.

Claim 67. (Previously presented) The clear, edible oil of claim 59, wherein the unesterified sterol level is less than about 3%.

Claim 68. (Previously presented) An edible oil comprising more than about 10% of a sterol fatty acid ester composition, the sterol fatty acid ester composition comprising more than

about 50% monounsaturated fatty acids, less than about 6% saturated fatty acids, and less than 50% polyunsaturated fatty acids, wherein the unesterified sterol level is less than about 10%, and wherein the edible oil is free of solids at room temperature.

Claim 69. (Previously Presented) The edible oil of claim 57 containing up to 30% sterol fatty acid ester composition.
